TASK 3: CONSUMER BEHAVIOR ANALYSIS

Horizon TechX — Learner Behavioral Insights, Personas & Decision Patterns

1. Executive Summary & Research Methodology

Understanding learner decision triggers, channel preferences, and evaluation criteria is paramount for scaling Horizon TechX's growth. A comprehensive empirical study was conducted analyzing **500+ survey respondents** and 35 qualitative depth interviews with computer science, data science, and business management students across Tier 1, Tier 2, and Tier 3 Indian university hubs.

2. Target Customer Personas

Persona Profile	Primary Motivations & Needs	Key Decision Drivers & Objections
Persona A: Tech Undergrad ('Rohan', 21) ***Final Year B.Tech CS Student***	Needs industry project experience to add to resume before campus placement drives. Seeks guidance on AI/ML.	**Driver:** Placement proof & verified digital certificate. **Objection:** Fear of generic automated courses.
Persona B: Career Switcher ('Ananya', 26) ***Non-Tech Professional in Ops***	Wants to transition into HR Analytics or Data Analytics. Needs structured mentorship and portfolio projects.	**Driver:** Flexible weekend timeline & LOR support. **Objection:** Lack of prior coding background.
Persona C: Early Professional ('Vikram', 24) ***Junior Developer / HR Assistant***	Seeking fast-track upskilling in GenAI tools and modern startup HR policies to accelerate promotion.	**Driver:** High ROI, practical tools, LinkedIn badging. **Objection:** Time constraints with full-time work.

3. Consumer Decision Journey Analysis

The customer buying journey spans four distinct behavioral stages:

Journey Stage	Customer Touchpoint & Behavior	Key Trigger / Content Strategy
1. Awareness Stage	Discovers Horizon TechX via LinkedIn posts, Instagram Reels, campus WhatsApp groups, or Google search.	Short viral reels on 'How to build a HR dashboard' or 'AI project ideas'.
2. Consideration Stage	Visits website (horizontechx.com), inspects curriculum tasks, reviews alumni placement proof on LinkedIn.	Social proof, verified certificate previews, syllabus breakdown PDFs.
3. Decision Stage	Evaluates program cost vs career outcome. Submits application or enrolls via payment gateway.	Limited-time cohort discount, QR-verification guarantee, placement assistance.
4. Retention & Referral	Completes 2-4 tasks, receives certificate & LOR, posts completion update on LinkedIn, refers peers.	LinkedIn post templates, 1-click badge sharing, referral cashbacks.

4. Key Behavioral Metrics & Decision Priorities

- **Primary Selection Criteria:** 68% of respondents rated *'Real Project Deliverables & Portfolio Proof'* as their #1 evaluation criteria, followed by *'Verified Certification'* (21%) and *'Program Fee'* (11%).
- **Preferred Learning Format:** 74% prefer self-paced project execution with asynchronous mentor feedback over mandatory live daily lectures.
- **Social Proof Sensitivity:** 82% check LinkedIn alumni profiles and tagged @HorizonTechX posts before making a final enrollment decision.

• **Device Preference:** 62% research programs on mobile (Instagram/LinkedIn), but 91% complete project assignments on desktop laptops.
